MOISTURISING, THE FIRST STEP IN ANTI-AGEING CARE

Age, stress, hormonal changes and environmental factors (sun exposure, pollution, smoking, etc.) all contribute to ageing of the skin and subcutaneous tissues, resulting in loss of moisture, plumpness, tone and elasticity ⁽¹⁾. The skin gradually becomes thinner and drier, causing fine wrinkles to appear on the surface.

*To restore moisture and elasticity to the skin, Laboratoires VIVACY, specialists in Aesthetic Medicine with more than 15 years of experience in the field, have developed **STYLAGE**[®] **Hydro** and **STYLAGE**[®] **HydroMax**, formulated with a synergistic combination of hyaluronic acid and antioxidants.*

THE RIGHT SOLUTION FOR EVERY SKIN TYPE:

⌘ **STYLAGE® Hydro**

NON-CROSS-LINKED HYALURONIC ACID (14 mg/g)
+ MANNITOL

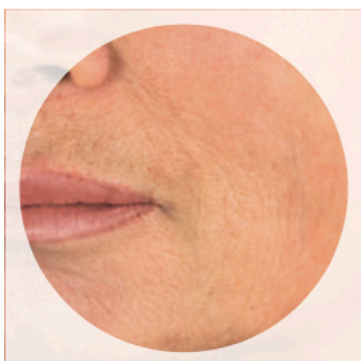

⌘ **STYLAGE® Hydromax**

IPN-LIKE CROSS-LINKED HYALURONIC ACID (12.5 mg/g) + SORBITOL

BEFORE

AFTER

The skin can start to lose moisture and become dry in a number of situations, for example:

- Spending a lot of time in the sun
- Spending a lot of time in heated or air-conditioned rooms
- High levels of stress

STYLAGE® Hydro and **STYLAGE® HydroMax** are designed to fight the symptoms caused by dry skin.

What does the procedure involve?

The treatment consists of multiple micro-injections performed into the superficial or deep dermis (depending on condition of the skin, the product and the chosen technique) of the face, neck, décolleté or back of the hand using very fine needles in order **to improve skin moisture and elasticity in the treated area.**

Several sessions at specific intervals may be necessary for optimal results. A personalised treatment plan is drawn up based on the needs of each patient. Regular touch-ups will help maintain the desired correction.

STYLAGE® injections are performed in medical settings by a qualified physician with good anatomical knowledge and trained to administer hyaluronic acid injections.

STYLAGE®

— SKIN PRO —

As a complement to hyaluronic acid injections, Laboratoires VIVACY offers STYLAGE® SKIN PRO, a professional range of anti-ageing dermo-cosmetics for the daily maintenance and improvement of skin quality after cosmetic medical procedures.

SOOTHING SKIN CARE

❏ **COOLING MIST**
(Treignac Natural Mineral Spring Water).
Soothing and moisturising mist for reactive and irritated skin.

❏ **SOOTHING REPAIR CREAM**
Soothing and moisturising cream, boosts the natural skin repair process.

ANTI-AGEING SKIN CARE

❏ **CELL REPAIR SERUM**
Moisturising, nourishing serum, refines the skin texture.

❏ **RESTRUCTURING ANTI-AGEING CREAM**

Smoothing anti-ageing cream that regenerates the skin and improves the maintenance of the skin barrier.
